

Pranjal Patel

pranj999@gmail.com | +1(732)763-2940 | pranj999.pythonanywhere.com | linkedin.com/in/pranj999

Research-oriented professional with a strong background in Computer Science with strong skills in data pre-processing, data processing, database management, data visualization, machine learning algorithms, neural networks, and data science. The short-term goal is to leverage strong data science skills to fill the position of Data Scientist or Data Analyst effectively. My long-term goal is to grow as a Machine Learning Engineer. Strengths include excellent verbal skills, sterling teamwork, well organized, ability to grasp ideas quickly, and hunger to learn something new from anyone.

EDUCATION

Boston University

September 2021 - January 2023

Masters in Computer Science, Overall GPA: 3.48

Boston, MA

- Relevant Courses: Machine learning, Web analytics and mining, Foundation of ML with R.

SRM Institute of Science and Technology

June 2021 - June 2021

Bachelors in Computer Science, Overall Percentage: 80

Chennai, India

- Relevant Courses: Analysis of algorithms, Data mining and analytics, Discrete Mathematics, Database systems.

PROFESSIONAL EXPERIENCE

Business Data Analyst

February 2023 – Present

Param Consultancy and IT Services

Iselin, NJ

- Analyzed data using SQL, Excel, and Looker Studio to identify patterns and trends. Created interactive reports to help stakeholders understand metrics and make informed decisions.
- Led a team of developers, conducted regular team meetings, fostered collaboration, and successfully delivered the Django website within the agreed timeline and budget, meeting all specified requirements.

Data Analyst Intern

June 2022 – August 2022

Shift4

Allentown, PA

- Liaised with developers to automate the process of verification of the data provided by writing a script in SQL and Python. SQL Server was used to manage the data. Delivered important inferences using Tableau.
- Performed Exploratory Data Analysis on a dataset using R and presented findings with R Markdown.

PROJECTS

Portfolio Project | Django, HTML, Tailwind CSS, JavaScript

June 2023 – July 2023

- Developed a responsive portfolio website to showcase my abilities and accomplishments. The project offers users a user-friendly interface to explore my work, learn about my experience, and contact me for prospective partnerships and opportunities.

Disaster Tweet Classification | NumPy, Pandas, Keras, Sklearn, Nltk, Matplotlib

March 2022 – April 2022

- Build two machine learning models to correctly classify tweets if they are related to any disaster or not. The first model used a count vector and Random Forest while the second used Bidirectional LSTM. The accuracy of both models was compared and useful inferences were extracted.

Sentiment Analysis of Social Media | Seaborn, AdaBoost, LDA, Gradient Boosting, KNN.

March 2022 – April 2022

- Used machine learning to detect sentiment on social media posts. By comparing algorithms and using natural language processing, identified the sentiment and extracted features. To ensure reliability, used cross-validation techniques.

Exploratory Data Analysis | R markdown, DPLYR, ggplot2, tidyverse

October 2021 – November 2021

- Analyzed Boston's crime rate data, uncovering trends and correlations. Used statistical techniques and visualizations to draw meaningful conclusions presented in an R markdown file.

Interactive Data Dashboards | Looker Studio, Google Sheets, Excel

October 2023 – January 2024

- Orchestrated the creation of interactive data dashboards using Looker Studio, integrating data from Google Sheets and Excel. Designed customized visualizations and organized dashboards for efficient navigation, leveraging Looker Studio's user-friendly interface. Empowered stakeholders with actionable insights, facilitating informed decision-making.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, R, HTML, CSS, JavaScript

Software Development: Agile Methodology, ER-Modeling

DBMS: MySQL

Development Tools: WAMP Server, XAMP Server, Apache Tomcat, Eclipse IDE, Tableau, Looker Studio

Miscellaneous Tools: Microsoft Office(Excel, PowerPoint, Word), Postman, JIRA, GitHub

Communication: English, Hindi, Gujarati
